### EXPERIENCE

## PROJECTS

### KING OF THE WORLD

⚙ JavaScript | PhaserJS | HTML5 | Eureka (WebSockets)  
<http://kingoftheworld.xyz>

This is an open lobby multiplayer game in which each user selects a character and then fights each other. The losers are eliminated, while the those who remain will gain extra health and deal more damage to opponents. The last person alive is considered "king of the world".

### GAME OF LIFE

⚙ JavaScript | HTML5 | CSS  
<http://kolbeypruitt.com/gol>

This simulation takes Conway's basic rules a step further by making newborn cells inherit their color based on the taking an R, G, and B color value from each of its 3 neighbors. The newborns also start out with 10% opacity which increases 10% each turn that it lives.

### POWDR

⚙ javascript | AngularJS | PostgreSQL | restAPI | Bootstrap  
<http://powdr.herokuapp.com>

An application for checking ski resort conditions. It also allows users to sign in with facebook, and save their favorite resorts to a list. This app used several different 3rd party API's to retrieve all of it's data.

### COUNTRY HORIZON RV PARK

⚙ JavaScript | HTML5 | CSS | Bootstrap  
<http://countryhorizonrvpark.com>

A static landing page for my parents company. It is responsive and developed from a mobile-first approach.

### MTMOFFICIAL

⚙ JavaScript | MongoDB | Stripe API | HTML5 | CSS | Bootstrap  
<http://mtmofficial.com>

An elegant website with all custom branding as well as a hand rolled merchandise store accepting Stripe payments and storing customers and orders in a database.
